

Professional Development Training with *Strategy Execution* and *Brazosport College*

Scheduling and Cost Control

In this course you will focus on managing the constraints you face in any project: limits on time, human resources, materials, budget and specifications. Discover proven ways to work within your identified constraints, without letting predefined limits curtail creativity or innovation.

You will gain hands-on experience, practicing your skills in building project requirements and the work breakdown structure. You will learn a sound, logical framework for scheduling and controlling project activities. And you will master techniques for estimating, forecasting, budgeting, monitoring, controlling, analyzing and reporting costs and interpreting the meaning of earned-value data.

*Please bring a calculator to Class.

Course Details
